Claim 10 is cancelled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The Declaration dated 2/2/2004 by Mr. Endo has been carefully considered. The Declaration shows comparative results between the instant invention and the prior art references JP 07-026212 and JP 11-021519. Tables 1-7 summarize the experimental results which show unexpected weathering properties of the instant invention for protecting the coated film of an automobile. In particular, the instant invention generally retains adhesive force with a clean peel off after weathering test, whereas the prior art samples generally fail by cohesive failure and/or impossible to peel off after weathering. As such, the distinct composition of instantly claimed invention show unexpected

weathering properties which is unobvious over the adhesive sheets of the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
